## The President's Summer Message

As we prepare our summer camp schedule it brings back to mind the simple joy of waking up on a summer morning, watching "Leave it to Beaver" and then heading out on my bike to play neighborhood pickup baseball for the balance of the day. This feeling of the sheer enjoyment of the game is what we would like to pass on to the players that attend our summer camps. We will work with them to improve their various skills, play pickup games but it is the love of the game that we would like them to leave with the most. Baseball is one of the greatest life-time companions anyone could ask for. The season itself plays out like a long running serial or soap opera whether it is the team you're playing on or the major league team you are following. You can collect cards, read box scores and take in games at various ballparks stretched across North America. Numerous fine authors write books on the intersection of baseball and history. Most of all baseball helps form connections between people of different generations, continents as well as the kids down the street. For all these good things to happen we have to remember "It has to be fun!" I hope to see you all this summer because its always fun.

Sincerely,

Chris Corkum
